First, in user networks settings, I click on "twitter" to link to twitter.

Next, Twitter asked to authorize app.

You can revoke access to any application at any time from the Applications tab of your Settings page. By authorizing an application you continue to operate under Twitter's Terms of Service. In particular, some usage information will be shared back with Twitter. For more, see our Privacy Policy.

I click "authorize app". App authorizes

I can verify app is authorized by looking at my twitter settings

	Applications These are the apps that can access your Twitter account Learn more		
dannyanders @dannyanders	XTRAXX by XTRAXX oncall Permissions: read and write Approved: Tuesday, July 22, 2014 5:54:13 a.m.	Revoke access	
@dannyanders	Approved: Tuesday, July 22, 2014 5:54:13 a.m.		

However, when I am returned to settings page, I see this:

Networks	
Available Networks Where you share your Activity Stream	Facebook Twitter The social profile is linked to another user
Active Networks Where you share your Activity Stream	✓ facebook

And I am not linked to twitter.

Also, if if I check the connection browser in ACP as admin, there is no connection to twitter.:
