

+++++  
This works like a charm on the Home Page - I'm trying to get a slightly modified version on content pages.  
+++++

```
{* FEATURED TABS *}
```

```
<br><div class="row">
```

```
  <div class="col12 last">
```

```
    {if jrCore_is_mobile_device()}<div class="menu_tab">
```

```
      <div id="default" class="p_choice fartist" onclick="jrLoad( {jrCore_list module="jrProfile" order_by="_profile_id  
random" search1="profile_active = 1" quota_id="6,7" limit="4" template="index_spotlight_artist.tpl"  
require_image="profile_image"})>Featured Artists</div>
```

```
      <div id="s_song" class="p_choice fsong"  
onclick="jrLoad('#sm',{ $jamroom_url}/index_songs);jrSetActive('#s_song');">Songs</div>
```

```

```
    </div>
```

```
</div>
```

```
</div>
```

+++++  
Put on songs page - Initial view is still artists until button is pressed - suspect related to Java loading code  
+++++

```
{*Song Featuring *}
<br><div class="row">

  <div class="col12 last">
    {if jrCore_is_mobile_device()}
      {else}
<div class="menu_tab">

  <div id="default" class="p_choice fsong"
onclick="jrLoad('#sm',{$_jamroom_url}/index_songs');jrSetActive('#default');">Featured Songs</div>

  <div class="clear"></div>
</div>

  <div class="inner mb8">
    <div id="sm"></div>
  </div>

</div>
</div>{/if}
```

+++++
Java Loading Code - Seems to cause the initial load to be not what I want on content pages
+++++

```
}

function jrSkinInit() {
  jrLoad('#sm',core_system_url +'/index_artists');
  jrLoad('#top_members',core_system_url +'/top_members');
  jrLoad('#top_songs',core_system_url +'/top_songs');
  jrLoad('#top_groups',core_system_url +'/top_groups');
  jrLoad('#top_discussions',core_system_url +'/top_discussions');
  jrLoad('#top_notes',core_system_url +'/top_notes');
  jrLoad('#top_actions',core_system_url +'/top_actions');
  jrLoad('#top_blogs',core_system_url +'/top_blogs');
  jrLoad('#top_galleries',core_system_url +'/top_galleries');
  jrSetActive('#default');
}
}
```
