## Hippy Fest

Martha Campbell » Events » Event

Attended?

Saturday April 11 2015, 12:00 AM

@ hipsville usa

another crazy music fest....

New event appears on member's page. Still no message concerning the event waiting for approval....not until I happen to click on the event's "Gear" to update or edit the event. That's when the member finally gets the 'waiting approval' message on top of page. And if I never go back to update or edit the event, I'll never see the waiting for approval message at all.
